Revision Date 11.08.2020

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

## **1.1 Product identifier**

- Trade name DAPCO<sup>™</sup> 2100 PRIMERLESS FIREWALL SEALANT, PART A

## **1.2** Relevant identified uses of the substance or mixture and uses advised against

#### Uses of the Substance/Mixture

- Engineered materials

## 1.3 Details of the supplier of the safety data sheet

## **Company**

CYTEC INDUSTRIES INC. COMPOSITE MATERIALS 504 CARNEGIE CENTER PRINCETON, NJ 08540 USA Tel: +1-833-970-1163

## E-mail address

manager.sds@solvay.com

## 1.4 Emergency telephone number

+44(0)1235 239 671 [CareChem 24]

## Disclaimer

The ® indicates a Registered Trademark in the United States and the <sup>™</sup> indicates a trademark in the United States. The mark may also be registered, subject of an application for registration, or a trademark in other countries.

## **SECTION 2: Hazards identification**

## 2.1 Classification of the substance or mixture

## **GHS Classification (UN)**

- Not a hazardous product according to Globally harmonized System (GHS)

## 2.2 Label elements

## GHS label elements (UN)

- Not a hazardous product according to Globally harmonized System (GHS)

## 2.3 Other hazards which do not result in classification

None known.

## **SECTION 3: Composition/information on ingredients**

#### 3.1 Substance

- Not applicable, this product is a mixture.

Revision Date 11.08.2020

## 3.2 Mixture

Chemical nature

Mixture of polysiloxanes and fillers

## Information on Components and Impurities

Chemical name	CAS-No.	GHS Classification	Concentrati on [%]
stearic acid	CAS-No. : 57-11-4	Not classified	1 - 5
titanium dioxide	CAS-No. : 13463-67-7	Not classified	1 - 5
Silanamine, 1,1,1-trimethyl-N-(trimethylsilyl)-, hydrolysis products with silica	CAS-No. : 68909-20-6	Not classified	1 - 5

## **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

## In case of inhalation

- Move to fresh air.
- Get medical attention immediately if symptoms occur.

## In case of skin contact

- Use appropriate protective equipment when treating a contaminated person.

## In case of eye contact

- Rinse with running water whilst keeping the eyes wide open.

## In case of ingestion

- Do NOT induce vomiting.
- Rinse mouth with water.

#### 4.2 Most important symptoms and effects, both acute and delayed

#### Effects

- No hazards to be specially mentioned.
- Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough.
- Risk of nose bleeding

# - Irritating to mucous membranes

## Repeated or prolonged exposure

- Contact with dust can cause mechanical irritation or drying of the skin.
- Dust contact with the eyes can lead to mechanical irritation.

#### Symptoms

- At high concentrations:
- slight irritation
- Cough
- Redness
- Redness of the conjunctiva

#### Effects

- Under certain conditions, this product may generate formaldehyde as a by-product of oxidative thermal decomposition. Formaldehyde is listed as a potential human carcinogen by IARC, OSHA, and ACGIH.

#### 4.3 Indication of any immediate medical attention and special treatment needed

PRC090078216 Version : 1.00 / Z\_UN ( EN )

## Notes to physician

- When symptoms persist or in all cases of doubt seek medical advice.

#### **SECTION 5: Firefighting measures**

#### 5.1 Extinguishing media

## Suitable extinguishing media

- Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

#### 5.2 Special hazards arising from the substance or mixture

- Under fire conditions:
- Will burn
- On combustion, toxic gases are released.

#### 5.3 Advice for firefighters

#### Special protective equipment for firefighters

- In the event of fire, wear self-contained breathing apparatus. **Specific fire fighting methods** 

- Do not use a solid water stream as it may scatter and spread fire.

#### **Further information**

- Standard procedure for chemical fires.
- Collect contaminated fire extinguishing water separately. This must not be discharged into drains.
- Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

#### **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

- For further information refer to section 8 "Exposure controls/personal protection".

#### **6.2 Environmental precautions**

- Prevent further leakage or spillage if safe to do so.
- Contain the spilled material by bunding.
- Do not let product enter drains.
- Do not allow uncontrolled discharge of product into the environment.

#### 6.3 Methods and materials for containment and cleaning up

- Stop leak if safe to do so.
- Avoid dust formation.
- Sweep up and shovel into suitable containers for disposal.
- Keep in properly labelled containers.
- Keep in suitable, closed containers for disposal.
- After cleaning, flush away traces with water.
- Recover the cleaning water for subsequent disposal.
- Decontaminate tools, equipment and personal protective equipment in a segregated area.
- Dispose of in accordance with local regulations.
- Never return spills in original containers for re-use.

## 6.4 Reference to other sections

- 7. HANDLING AND STORAGE
- 8. EXPOSURE CONTROLS/PERSONAL PROTECTION
- 13. DISPOSAL CONSIDERATIONS

PRC090078216 Version : 1.00 / Z\_UN ( EN )

Revision Date 11.08.2020

## **SECTION 7: Handling and storage**

#### 7.1 Precautions for safe handling

- Under certain conditions, this product may generate formaldehyde as a by-product of oxidative thermal decomposition. Formaldehyde is listed as a potential human carcinogen by IARC, OSHA, and ACGIH.
- Avoid exceeding the given occupational exposure limits (see section 8).
- Provide good ventilation of working area (local exhaust ventilation if necessary).

#### **Hygiene measures**

- Handle in accordance with good industrial hygiene and safety practice.
- Wash hands before breaks and at the end of workday.
- When using do not eat, drink or smoke.
- Eye wash bottles or eye wash stations in compliance with applicable standards.

#### 7.2 Conditions for safe storage, including any incompatibilities

## Requirements for storage rooms and vessels

## Recommended storage temperature: < 27 °C

- To guarantee the quality and properties of the product keep according to Storage temperature and conditions.

#### 7.3 Specific end use(s)

- Contact your supplier for additional information

# DAPCO<sup>™</sup> 2100 PRIMERLESS FIREWALL SEALANT, PART A

# **SECTION 8: Exposure controls/personal protection**

#### 8.2 Exposure controls

#### Control measures

#### Engineering measures

- Provide appropriate exhaust ventilation at places where dust is formed.
- Apply technical measures to comply with the occupational exposure limits.

#### Individual protection measures

#### **Respiratory protection**

- Keep in a well-ventilated place.
- Use the indicated respiratory protection if the occupational exposure limit is exceeded and/or in case of product release (dust).

#### Hand protection

- Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact).
- Impervious gloves

#### Eye protection

- Dust proof goggles, if dusty.
- Eye wash bottles or eye wash stations in compliance with applicable standards.

#### Skin and body protection

- Dust impervious protective suit

# Hygiene measures

- Handle in accordance with good industrial hygiene and safety practice.
- Wash hands before breaks and at the end of workday.
- When using do not eat, drink or smoke.
- Eye wash bottles or eye wash stations in compliance with applicable standards.

#### Environmental exposure controls

- Dispose of rinse water in accordance with local and national regulations.

## SECTION 9: Physical and chemical properties

## 9.1 Information on basic physical and chemical properties

Appearance	Form:	paste
	Physical state:	solid
<u>Odour</u>	<u>Colour</u> : odourless	blue
Odour Threshold	No data available	)
Molecular weight	Mixture	
<u>рН</u>	No data available	9
Melting point/freezing point	No data available	9
Initial boiling point and boiling range	No data available	9
Flash point	> 93 °C Seta clos	sed cup
Evaporation rate (Butylacetate = 1)	No data available	9
<u>Flammability (solid, gas)</u>	No data available	9

Flammability (liquids)	No data available
Flammability/Explosive limit	No data available
Auto-ignition temperature	No data available
Vapour pressure	No data available
Vapour density	No data available
<u>Density</u>	1.45 g/cm3
Relative density	No data available
Solubility	<u>Water solubility</u> : negligible
Partition coefficient: n-octanol/water	No data available
Decomposition temperature	No data available
<u>Viscosity</u>	No data available
Explosive properties	No data available
Oxidizing properties	No data available
9.2 Other information	
Non Volatiles by Weight	100 %

# **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

- no data available

## **10.2 Chemical stability**

- Stable under normal conditions.

### 10.3 Possibility of hazardous reactions

- polymerisation
- Hazardous polymerisation does not occur.

#### 10.4 Conditions to avoid

- None known.

#### 10.5 Incompatible materials

- none

## **10.6 Hazardous decomposition products**

PRC090078216 Version : 1.00 / Z\_UN ( EN )

- Carbon dioxide (CO2)Carbon monoxide
- Formaldehyde -
- Silicon dioxide -
- -Calcium oxide

SECTION 11: Toxicological information		
11.1 Information on toxicological effects		
Acute toxicity		
Acute oral toxicity	Not classified as hazardous for acute oral toxicity according to GHS. According to the available data on the components. According to the classification criteria for mixtures. Unpublished reports and/or published data.	
Acute inhalation toxicity	Not classified as hazardous for acute inhalation toxicity according to GHS. According to the available data on the components. According to the classification criteria for mixtures. Unpublished reports and/or published data.	
Acute dermal toxicity	Not classified as hazardous for acute dermal toxicity according to GHS. According to the available data on the components. According to the classification criteria for mixtures. Unpublished reports and/or published data.	
Acute toxicity (other routes of administration)	Not applicable	
Skin corrosion/irritation	Not classified as irritating to skin According to the available data on the components. According to the classification criteria for mixtures. Unpublished reports and/or published data.	
Serious eye damage/eye irritation	Not classified as irritating to eyes According to the available data on the components. According to the classification criteria for mixtures. Unpublished reports and/or published data.	
<u>Respiratory or skin sensitisation</u>	Does not cause skin sensitisation. According to the available data on the components. According to the classification criteria for mixtures. Unpublished reports and/or published data. Does not cause respiratory sensitisation. According to the available data on the components. According to the classification criteria for mixtures.	
	Unpublished reports and/or published data.	
<u>Mutagenicity</u>		
Genotoxicity in vitro	Product is not considered to be genotoxic According to the available data on the components. According to the classification criteria for mixtures. Unpublished reports and/or published data.	
Genotoxicity in vivo	Product is not considered to be genotoxic According to the available data on the components. According to the classification criteria for mixtures. Unpublished reports and/or published data.	

Carcinogenicity       The product is not considered to be carcinogenic. According to the available data on the components. According to the classification criteria for mixtures. Unpublished reports and/or published data.         Toxicity for reproduction/Fertility       The product is not considered to affect fertility. According to the available data on the components. According to the classification criteria for mixtures. Unpublished reports and/or published data.         Developmental Toxicity/Teratogenicity       The product is not considered to be toxic for development. According to the classification criteria for mixtures. Unpublished reports and/or published data.         STOT       The substance or mixture is not classified as specific target organ toxicant, sing exposure according to GHS criteria. No data is available on the product itself.         Experience with human exposure : Eye contact         No data is available on the product itself.         Experience with human exposure : Ingestion         No data is available on the product itself.         CMR effects         Carcinogenicity         stearic acid         Not classified as a carcinogen according to GHS criteria: the mechanism or moor of action of tumour formation is considered not relevant for humans.         Mutagenicity         stearic acid         Not classified as mutagen according to GHS criteria.		No data is available on the product itself.
Experience with human exposure : Eye contact       No data is available on the product itself.         Experience with human exposure : Ingestion       No data is available on the product itself.         CMR effects       No data is available on the product itself.         Carcinogenicity       Not classified as a carcinogen according to GHS criteria         titanium dioxide       Not classified as a carcinogen according to GHS criteria: the mechanism or moor of action of tumour formation is considered not relevant for humans.         Mutagenicity       Not classified as mutagen according to GHS criteria.	Experience with human exposure : Skin	contact
No data is available on the product itself.         Experience with human exposure : Ingestion         No data is available on the product itself.         CMR effects         Carcinogenicity         stearic acid         Not classified as a carcinogen according to GHS criteria         titanium dioxide         Not classified as a carcinogen according to GHS criteria: the mechanism or moor of action of tumour formation is considered not relevant for humans.         Mutagenicity         stearic acid         Not classified as mutagen according to GHS criteria.		No data is available on the product itself.
Experience with human exposure : Ingestion       No data is available on the product itself.         CMR effects       Carcinogenicity         stearic acid       Not classified as a carcinogen according to GHS criteria         titanium dioxide       Not classified as a carcinogen according to GHS criteria: the mechanism or more of action of tumour formation is considered not relevant for humans.         Mutagenicity       Not classified as mutagen according to GHS criteria.	Experience with human exposure: Eye	contact
CMR effects         Carcinogenicity         stearic acid         Not classified as a carcinogen according to GHS criteria         titanium dioxide         Not classified as a carcinogen according to GHS criteria: the mechanism or moor of action of tumour formation is considered not relevant for humans.         Mutagenicity         stearic acid         Not classified as mutagen according to GHS criteria.		No data is available on the product itself.
CMR effects         Carcinogenicity stearic acid       Not classified as a carcinogen according to GHS criteria         titanium dioxide       Not classified as a carcinogen according to GHS criteria: the mechanism or mo of action of tumour formation is considered not relevant for humans.         Mutagenicity stearic acid       Not classified as mutagen according to GHS criteria.	Experience with human exposure : Inge	stion
Carcinogenicity       Not classified as a carcinogen according to GHS criteria         titanium dioxide       Not classified as a carcinogen according to GHS criteria: the mechanism or more of action of tumour formation is considered not relevant for humans.         Mutagenicity       Not classified as mutagen according to GHS criteria.		No data is available on the product itself.
stearic acid       Not classified as a carcinogen according to GHS criteria         titanium dioxide       Not classified as a carcinogen according to GHS criteria: the mechanism or moor of action of tumour formation is considered not relevant for humans.         Mutagenicity       Stearic acid         Not classified as mutagen according to GHS criteria.	CMR effects	
of action of tumour formation is considered not relevant for humans.         Mutagenicity         stearic acid         Not classified as mutagen according to GHS criteria.		Not classified as a carcinogen according to GHS criteria
stearic acid Not classified as mutagen according to GHS criteria.	titanium dioxide	Not classified as a carcinogen according to GHS criteria: the mechanism or mo of action of tumour formation is considered not relevant for humans.
Teratogenicity		Not classified as mutagen according to GHS criteria.
	Teratogenicity	
AUDA/8216	<b>:O90078216</b> ion:1.00 / Z_UN(EN)	SOLVAY

	DAPCO™ 2100 PRIMERLESS FIREWALL SEALANT, PART A
	Revision Date 11.08.2020
stearic acid	Not classified as toxic for the reproduction (development) according to GHS criteria
Reproductive toxicity stearic acid	Not classified as toxic for the reproduction (fertility and/or development) according to GHS criteria
Aspiration toxicity	No aspiration toxicity classification, According to the available data on the components, According to the classification criteria for mixtures.

# **SECTION 12: Ecological information**

# 12.1 Toxicity

Aquatic Compartment	
Acute toxicity to fish	The product itself has not been tested.
Acute toxicity to daphnia and other aquatic invertebrates	The product itself has not been tested.
Toxicity to aquatic plants	The product itself has not been tested.
Toxicity to microorganisms	The product itself has not been tested.
Chronic toxicity to fish	The product itself has not been tested.
Chronic toxicity to daphnia and other aquatic invertebrates	The product itself has not been tested.
Sediment compartment	
Toxicity to benthic organisms	The product itself has not been tested.
Terrestrial Compartment	
Toxicity to soil dwelling organisms	The product itself has not been tested.
Toxicity to terrestrial plants	The product itself has not been tested.
Toxicity to above ground organisms	The product itself has not been tested.
12.2 Persistence and degradability	
Abiotic degradation	
Stability in water	Conclusion is not possible for a mixture as a whole.
Photodegradation	Conclusion is not possible for a mixture as a whole.
Other Physico-Chemical reactions	Conclusion is not possible for a mixture as a whole.
Physical- and photo-chemical eliminatio	<u>n</u>
Physico-chemical removability	Conclusion is not possible for a mixture as a whole.
<b>Biodegradation</b>	
Biodegradability	As (bio)degradability is not relevant for mixtures, all the components of the mixture were assessed individually (rapid degradability assessment available below).
Ratio BOD/COD	Conclusion is not possible for a mixture as a whole.
PRC090078216 Version : 1.00 / Z_UN ( EN )	
www.solvay.com	SOLVAY

Revision Date 11.08.2020

Ratio BOD/ThOD	Conclusion is not possible for a mixture as a whole.
Biochemical Oxygen Demand (BOD)	Conclusion is not possible for a mixture as a whole.
Dissolved organic carbon (DOC)	Conclusion is not possible for a mixture as a whole.
Chemical Oxygen Demand (COD)	Conclusion is not possible for a mixture as a whole.
Adsorbed organic bound halogens (AOX)	Conclusion is not possible for a mixture as a whole.
Degradability assessment	Conclusion is not possible due to incomplete or heterogeneous data on the components Unpublished reports Published data
12.3 Bioaccumulative potential	
Partition coefficient: n- octanol/water	Conclusion is not possible for a mixture as a whole.
Bioconcentration factor (BCF)	As bioaccumulation is not relevant for mixtures, all the components of the mixture were assessed individually. Conclusion is not possible due to incomplete or heterogeneous data on the components Unpublished reports Published data
12.4 Mobility in soil	
Adsorption potential (Koc)	Conclusion is not possible for a mixture as a whole.
Known distribution to environmental compartments	Conclusion is not possible due to incomplete or heterogeneous data on the components
12.5 Results of PBT and vPvB assessment	According to the available data on the components This mixture contains no substance considered to be persistent, bioaccumulating and toxic (PBT). This mixture contains no substance considered to be very persistent and very bioaccumulating (vPvB).
12.6 Other adverse effects	
Ecotoxicity assessment	
Short-term (acute) aquatic hazard	No acute environmental hazard identified According to the available data on the components. According to the classification criteria for mixtures. Unpublished reports and/or published data.
Long-term (chronic) aquatic hazard	No chronic environmental hazard identified. According to the available data on the components. According to the classification criteria for mixtures. Unpublished reports and/or published data.

# **SECTION 13: Disposal considerations**

## 13.1 Waste treatment methods

## Product Disposal

- The Company encourages the recycle, recovery and reuse of materials, where permitted. If disposal is necessary, The Company recommends that organic materials, especially when classified as hazardous waste, be disposed of by thermal treatment or incineration at approved facilities. All local and national regulations should be followed.

PRC090078216 Version : 1.00 / Z\_UN ( EN )

Revision Date 11.08.2020

# **SECTION 14: Transport information**

#### **IMDG**

not regulated

#### <u>IATA</u>

not regulated

Note: The above regulatory prescriptions are those valid on the date of publication of this sheet. Given the possible evolution of transport regulations for hazardous materials, it would be advisable to check their validity with your sales office.

## **SECTION 15: Regulatory information**

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

### Local regulations

No data available

## Notification status

Inventory Information	Status
United States TSCA Inventory	- All substances listed as active on the TSCA inventory
Canadian Domestic Substances List (DSL)	- Listed on Inventory
Australia Inventory of Chemical Substances (AICS)	- Listed on Inventory
Japan. CSCL - Inventory of Existing and New Chemical Substances	- Listed on Inventory
Korea. Korean Existing Chemicals Inventory (KECI)	- Listed on Inventory
China. Inventory of Existing Chemical Substances in China (IECSC)	- Listed on Inventory
Philippines Inventory of Chemicals and Chemical Substances (PICCS)	- Listed on Inventory
Taiwan Chemical Substance Inventory (TCSI)	- Listed on Inventory
New Zealand. Inventory of Chemical Substances	- All components are listed on the NZIOC inventory. The HSNO status of the product has not been assessed.
EU. European Registration, Evaluation, Authorisation and Restriction of Chemical (REACH)	<ul> <li>When purchased from a Solvay legal entity based in the EEA ("European Economic Area"), this product is compliant with the registration provisions of the REACH Regulation (EC) No. 1907/2006 as all its components are either excluded, exempt, and/or registered. When purchased from a legal entity outside of the EEA, please contact your local representative for additional information.</li> </ul>

#### **SECTION 16: Other information**

## Key or legend to abbreviations and acronyms used in the safety data sheet

Revision Date 11.08.2020

- SAEL: Solvay Acceptable Exposure Limit
- TWA: 8-hour, time-weighted average
- ADR: European Agreement on International Carriage of Dangerous Goods by Road.
- ADN: European Agreement on the International Carriage of Dangerous Goods by Inland Waterways.
- RID: European Agreement concerning the International Carriage of Dangerous Goods by Rail.
- IATA: International Air Transport Association.
- ICAO-TI: Technical Instructions for Safe Transport of Dangerous Goods by Air.
- IMDG: International Maritime Dangerous Goods.
- TWA: Time weighted average
- ATE: Estimated value of acute toxicity
- EC: European Community number
- CAS: Chemical Abstracts Service.
- LD50: Substance that causes 50% (half) death in the test animals group (Median Fatal Dose).
- LC50: Substance concentration causing 50% (half) death in the test animals group.
- EC50: Effective Concentration of the substance causing the maximum of 50%.
- PBT: Persistent, Bioaccumulative and Toxic substance.
- vPvB: Very Persistent and Very Bioaccumulative.
- GHS/CLP/SEA: Classification, labeling, packaging regulation
- DNEL: Derived No Effect Level
- PNEC: Predicted No Effect Concentration
- STOT: Specific Target Organ Toxicity

#### Not all acronyms listed above are referenced in this SDS.

#### Further information

- Distribute new edition to clients

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. Such information is only given as a guidance to help the user handle, use, process, store, transport, dispose and release the product in satisfactory safety conditions and is not to be considered as a warranty or quality specification. It should be used in conjunction with technical sheets but do not replace them. Thus, the information only relates to the designated specific product and may not be applicable if such product is used in combination with other materials or in any other manufacturing process, unless otherwise specifically indicated. It does not release the user from ensuring he is in conformity with all regulations linked to its activity.
