

TECHNICAL SPECIFICATION

CABIN CLEANER

Cabin Cleaner is a multipurpose cleaning agent for washable hard surfaces in the aircraft such as trays, toilet compartments (basins, toilets and surroundings), galleys, cabins (bulkheads, drop-down tables, etc.), armrests.... The pleasantly fragranced product effectively degreases and leaves no streaks after use. The non-corrosive formula is safe for use on metals, plastics or (un) painted surfaces. Cabin Cleaner (step 1 of 2) is compatible with the Aero-Sense Cabin Disinfectant (step 2 of 2).

CERTIFICATION	AMS 1550B Cleaner, Water Base, Aircraft interior Hard Surface Materials
	Airbus AIMS09-00-002 Evaluation of Maintenance Chemicals – Exterior and General Cleaners
	Boeing BSS7434 Chemical Compatibility of Cleaning products and Interior Parts/materials of Aircraft

PROPERTIES	Physical state at 20°C	Liquid
	Colour	Light green
	Odour	Characteristic
	pH value	± 9,0 (RTU/diluted)
	Solubility in water	Completely
	Flash point (°C)	≥ 70°C

AVAILABLE IN	☛ 750 ml spray bottle (ready-to-use liquid)
	■ 20 litre can (ready-to-use liquid)
	■ 5 litre can (concentrated liquid)

SAFETY	Review the Safety Data Sheet (SDS) before use. Shelf life: 36 months
---------------	---

APPLICATION	<ul style="list-style-type: none"> - Dilution ratio for liquid concentrate: 10%. - Simply spray the diluted or ready-to-use product on the washable surface. - Wipe clean. No rinsing required.
